SPORT NUTRITION

Performance and Science for **Your Brand.**

More and more people are incorporating sports into their lives as part of a healthy lifestyle. This shift has driven the demand for **high-quality sports nutrition**, designed for both athletes and active consumers seeking daily energy, recovery, and well-being.

At Boston Nutraceutical Science, we develop innovative sports nutrition solutions, tailor-made under your own **private label**, using state-of-the-art formulations, **international certifications**, and a **clean-label** approach that combines effectiveness, taste, and sustainability.

From the initial idea to the finished product on the shelf, we guide you through every stage of development, bringing together scientific precision and the vision of a true partner.

WHAT WE OFFER

- 
- **Standard and customized formulations** according to your brand's needs.
 - **Clean-label solutions:** vegan, gluten-free, lactose-free, and no added sugars*.
 - **Flavour, texture, and colour design** tailored to your preferences.
 - **Wide variety of sustainable packaging:** bottles, jars, sachets, or pouches.
 - **360° support:** formulation, prototyping, regulation, production, and packaging.

*Depending on the type of product

WHY BNS SPORT

Comprehensive expertise

Over a decade of experience manufacturing sports nutrition for international brands.

Rigor and certifications

Formulations backed by international standards (IFS and BRC).

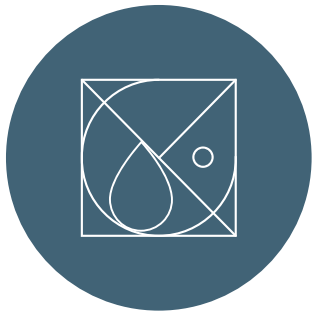

Consumer insight

Thanks to our own brand, **Vitaldin Sport**, we understand market dynamics and retail rotation.

Continuous innovation

Development of products adapted to new trends: plant-based, advanced hydration, and more.
